

Assembly & Installation Instructions

G19

For Round Post

Page 1 of 2

CAUTION: FAILURE TO INSTALL THIS FIXTURE PROPERLY MAY RESULT IN SERIOUS PERSONAL INJURY OR DEATH AND PROPERTY DAMAGE. We recommend installation by a licensed electrician.

This product must be installed in accordance with applicable installation code(s), by a person familiar with the construction and operation of the product and the hazards involved.*

Caution: Do not exceed maximum wattage noted on fixture. Use only recommended bulbs with fixture.

Note: Fixture, Post and Cover Cap each sold separately.

To Install (Figure 1)

Component Parts

- | | | | | | |
|---|--------|---|------------------|---|-------------|
| A | J Bolt | C | Flat Washer (4) | E | Hex Nut (4) |
| B | Post | D | Split Washer (4) | F | Cover Cap |

Caution: Be sure power is off at the main breaker box prior to installation.

Site Preparation

1. Run appropriate wiring to the site of the fixture, leaving enough excess wire to reach the top of the post, plus 12 inches.
2. Pour flat and level concrete base with wiring emerging at the center. Insert J bolts (A) so approximately 1" of the bolts are exposed above the concrete. Position J bolts according to the template on the last page of these instructions. Allow concrete to cure before installing fixture.

Installation

Note: Post may be cut to desired height before installation.

1. Position post over J bolts allowing supply wire to run up though the post and secure using flat washers (C), split washers (D) and hex nuts (E).
2. Place optional cover cap (sold separately) (F) over post to conceal mounting hardware.
3. Follow individual fixture instructions to complete installation.
